

NORALIGHTING

Introducing...

Economy Emergency CF Unit with INTEGRAL Test Switch!

Nora Lighting's family of 6-inch Economy Compact Fluorescent single lamp housings and trims now adds a NEW EMERGENCY version. The Emergency option comes with the battery and adds the test switch to the top of the can for a complete integral unit saving installation time. With a full line of reflectors and baffles, 13 to 42 watt single lamp and 13 to 26 watt dual lamp capacity, the 6-inch Economy Compact Fluorescent (CF) line by Nora becomes an excellent choice for design build work.

Features:

- Available in 13W to 42W
- Dimming ballast options
- Complete integral unit with battery and mounted test switch
- Visual test switch
- Large selection of open baffle or reflector trims
- High quality aluminum housing
