

BRILLIANCE SERIES – HID Wall Wash Track Fixtures

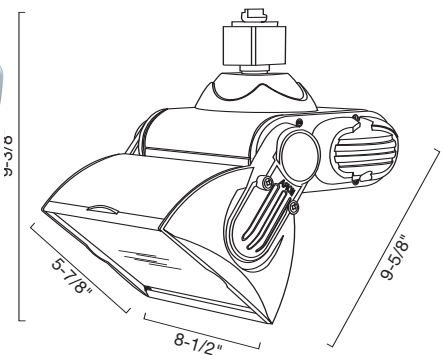

Nora Lighting's new Brilliance Series is a family of wall wash track fixtures that utilize ED17, T6 and T6 double-ended Metal Halide sources. These low profile, aesthetically designed fixtures have a powder-coated, cast aluminum housing with clear tempered safety glass that provides 42% UV filtering. A clear reflector provides optimum light performance. A 90-degree vertical and 360-degree horizontal adjustment allows for precise aiming.

NTM-5717

Shown with NAT-399 Prismatic Lens

FEATURES:

- EM/RFI compliance to FCC 18C
- Wire voltage regulation minimizes fluctuation
- Clear tempered safety glass provided 42% UV filtering
- Low profile, aesthetic design
- Heavy-duty cast aluminum construction
- Textured, powder coated finish in Black, White and Silver
- Integral electronic ballast
- Efficient and quiet operation
- ED17, T6 and T6 double-ended Metal Halide sources
- On-Off switch for relamping and repositioning
- Hidden safety switch turns power off when glass lens is removed.
(T6 lamp only)
